

Wholehearted Living at Its Core - Fall Series Prayer

I am a spiritual being winding my way through this precious gift of life on earth. I have come into this experience with every divine quality that is present in the energy that is God. I open to that Presence in me and allow those qualities to come forth. I create a firm foundation of spiritual truth with the qualities that resonate most deeply in my heart, and which offer guidance that is clear and in alignment with my most fervently held beliefs. I walk my talk, and step boldly into wholehearted living - living and loving from my heart in all that I do and all that I become.

And so it is, amen.
